

In re: Matthew Donofrio
Application No.: 10/815,293
Filed: April 1, 2004
Page 2 of 11

In the Title:

Please amend the title as follows:

~~LASER PATTERNING OF LIGHT EMITTING DEVICES AND PATTERNED~~
~~LIGHT EMITTING DEVICES~~

In the Specification:

Please amend the paragraph at page 15, lines 16-20 of the specification as follows:

20 Additionally, the surface of the substrate after the etch may be rough or
smooth. A roughened surface may be provided, for example, by placing a thin layer
of material 315, such as aluminum, between the etch mask and the substrate to create
a micro-mask 315. When etched, the micro-mask may act to roughen the surface of
the substrate.
